

AGN. NO.

MOTION BY SUPERVISOR GLORIA MOLINA

March 15, 2011

Each year, the American Society of Civil Engineers (ASCE) holds its National Concrete Canoe Competition which provides students with a practical application of classroom engineering principles, along with important team and project management skills. The event challenges the students' knowledge, creativity and stamina, while showcasing the versatility and durability of concrete as a building material. California State University Los Angeles' Civil Engineering Department students will compete in the national competition.

I, THEREFORE, MOVE that the Board of Supervisors hereby instruct the Director of the Department of Parks and Recreation to waive the park fees in the amount of \$1,707 for the California State University Los Angeles' Civil Engineering Department at Santa Fe Dam, excluding liability insurance on March 25th 2011.
